DAILY BEAUTY DRINK

THE NEW GENERATION COLLAGEN

RE-COLLAGEN[®] PROMOPHARMA[®]

Thanks to its modern formulation, RE-COLLAGEN[®] is a next generation product in the "beauty from within" market. For years PhromoPharma has developed products for the stimulation of type-1 collagen, and RE-COLLAGEN[®] is the evolution of a market still anchored to formulations based solely on collagen of animal origin.

6 REASONS TO CHOSE RE-COLLAGEN[®] AND RECOMMEND IT TO CONSUMERS:

RE-COLLAGEN[®]

It is a cutting-edge formulation with a perfect synergy of active ingredients that stimulate the endogenous synthesis of collagen, with the exclusive ABC COMPLEX[®] (Amino Boost Collagen Complex)

Glycine, Proline and Hydroxyproline are only of plant origin

Pleasant taste

Triple action: active in the collagen synthesis, antioxidant action and skin hydration

A 60 days package, with lower daily cost

Handy stick pack, with an innovative and elegant image in line with the target

RE-COLLAGEN[®]

DAILY BEAUTY DRINK

THE NEW GENERATION COLLAGEN

SCIENTIFICALLY FORMULATED MODE OF ACTION

The supplementation of glycine, proline and hydroxyproline combined with Silica and MSM **stimulates collagen formation from within**. Their action is targeted to a **natural fleshing out** in a more focused and specific way when compared to the intake of hydrolyzed (animal derived) collagen, a protein that still has to be ingested and split into individual amino acids.

ABC COMPLEX[®] (AMINO BOOST COLLAGEN COMPLEX)

Glycine, Proline, and Hydroxyproline, are highly available amino acids of plant origin. The body synthesizes the collagen beginning from its single amino acids. **Glycine, Proline, and Hydroxyproline are the most important amino acids in the formation of the triple helix structure of collagen.**

METHYLSULFONYLMETANE, SILICA, VITAMIN C AND VITAMIN E

These active ingredients have an important role in **reducing the effects of aging**. Together they promote the **formation of new collagen**. The silica is organic obtained from bamboo and is an essential nutrient that helps keep skin and hair healthy.

HYALURONIC ACID

It is a very important element for our skin as it helps maintain moisture retention in the tissues and **proper lubrication of the connective tissue**. The hyaluronic acid has always been recommended for an **anti-aging effect on skin**, face, and all skin tissues, as well as to promote the wound healing processes.

RE-COLLAGEN[®]

DAILY BEAUTY DRINK

THE NEW GENERATION COLLAGEN

Ingredients	Per recommended daily amount 1 stick pack (12ml)
ABC COMPLEX [®]	1500 mg
Methylsulfonylmetane MSM	375 mg
Vitamin C	200 mg (250% NRV)
Bamboo d.e. 70% Silica	180 mg
Vitamin E	30 mg (250% NRV)
Hyaluronic Acid	10 mg

Ingredients: Water, Apple juice concentrate, ABC COMPLEX[®] (Amino Boost Collagen Complex - made of L-Glycine, L-Proline and L-Hydroxyproline), Methylsulfonylmetane MSM, Vitamin C (L-Ascorbic acid), Bamboo (Bambusa vulgaris Schrad. Ex J.C.Wendl., stem) d.e. titrated in 70% Silica, Vitamin E (Vitamin E acetate), Flavor, Citric acid, Potassium sorbate, Hyaluronic acid (Sodium hyaluronate).

How to use: Take 1 stick pack daily, preferably with breakfast, to drink as it is or diluted in a glass of water.

GLUTEN FREE
